

CHINA

Testimonials

This was certainly one of the most pleasant and poignant experiences of our lives. Expect a culture of contrast and paradox – poverty and wealth, ancient and high tech, beauty and brawn, capitalism and communism, snail’s pace and warp speed.

The locations we visited exceeded my expectations! I still can't believe we had the opportunity to see so many sites in such a short time period.

A very educational experience with a culture so different from ours. Tour guides were great and gave us a glimpse into “real life” in China as well as the history and tour information.
