### about membership

It's not too late to take advantage of the membership discount. To learn more, call 502-695-4700 and ask for a membership representative.

## why attend

Now more than ever, due to COVID-19, the health care industry is on the forefront of safety, and they need to be on the forefront of safety and health practices and management as well. Employers who provide inpatient and outpatient medical, nursing and dental services to the public may face the widest range of job-related hazard/exposures of all occupational business sectors. Exposures can include chemical and physical agents, pharmaceuticals, infectious diseases, and ionizing radiation to name a few.

Medical employers are required by the Occupational Safety and Health Act to provide a workplace free from recognized hazards that may pose harm to their employees. The Occupational Safety and Health Administration (OSHA) creates and enforces mandatory requirements (OSHA Standards) many of which apply to medical and related operations.

This two-day course will cover the background and relevance of applied Occupational Safety and Health (OSH) Management practices and will specifically discuss and clarify those OSHA regulations applicable to health care operations.

Get your questions answered:

- How has COVID-19 impacted OSH in the health care industry?
- What standards apply to us?
- How do we meet OSHA compliance requirements for our industry?
- What PPE do we need?
- Best health practices for COVID- 19?
- What training does OSHA require?
- What are industry best practices?

Attendees will also receive user-friendly compliance templates and reference guides.

The course was designed specifically for health care providers and will be facilitated by two board Certified Safety/Health Professionals, (CSPs) with a wide range of safety experience, including health care and COVID-19 safety response.

## who should attend?

Management, supervisors, administrative personnel, trainers and safety and health employees in any of the following industries:

- Hospitals
- Medical offices
- Dental offices
- Medical and diagnostic laboratories
- Nursing and residential care facilities
- Rehab and physical therapy facilities
- Medical clinics
- Out-Patient surgery centers
- Ambulatory health care services
- Birthing centers
- Home health care
- Emergency medical care facilities
- Out-patient chemo treatment offices

## about about the speakers

### Learn more about our speakers at

[kychamber.com/events/education/oshforhealthcare/speakers](http://kychamber.com/events/education/oshforhealthcare/speakers)

**Bobbi K. Samples, CSP**  
**Owner and Principal Consultant**  
**The Safety Firm, LLC**

Samples is the owner and principal consultant of The Safety Firm, LLC. This is the sixth business she has successfully imagined, created, owned and operated. She received her business management degree from Indiana Wesleyan University and has worked at the executive level within Fortune 500 companies in the areas of human resources and safety. Through The Safety Firm, LLC, Samples works with multiple industries including health care, manufacturing, and construction to help them manage, audit, train, and grow their safety program to higher levels. She has been on consultative retainer to several outpatient medical facilities and numerous manufacturing sites. Besides directing the operations of The Safety Firm, she is a professional artist and innovative motivational speaker. She is consistently cited for her entrepreneurial approaches to training, professional growth and workforce solutions.

**Bill Simkins, CSP**  
**Managing Partner**  
**W.E. Simkins & Associates**

Simkins has been providing occupational health and safety management strategies to public and private sector business for more than 38 years. He was a director of environmental health & safety for Frito-Lay North America and Pepsi North America Beverages operations, retiring in 2018. He now leads W.E. Simkins & Associates, a consulting practice providing safety and health leadership and compliance strategies. Simkins career includes 12 years as a commissioned U.S. Army Medical Officer. He has a B.S. in Public Health and an M.S. in Chemical Engineering from the University of Kentucky. He is a board-certified safety professional and a registered environmental professional.
