# 2nd Annual KENTUCKY HEALTHCARE INNOVATION SUMMIT

## What is the Kentucky Healthcare Innovation Summit

The future of healthcare is being driven by advancements in technology, personalized medicine, and a shift towards value-based care. Telemedicine, remote monitoring, and wearable devices are allowing for more convenient and efficient healthcare delivery. Personalized medicine, which involves tailoring treatment to an individual's genetic makeup, is also expected to become more common. And the current emphasis on preventative care and addressing social determinants of health to improve overall outcomes, will grow exponentially.

Overall, the future of healthcare is expected to be more patient-centered, data-driven, and focused on improving the quality of care while reducing costs. During this Summit, you'll hear from many healthcare product and service providers on how the role of their respective segments of the healthcare industry will evolve in the coming years to create better outcomes for their patients (clients) in more affordable ways.

## Who Attends?

- Healthcare professionals
- Anyone in the pharmaceutical industry
- Healthcare providers
- Physician services
- Health Insurance providers
- Anyone who consumes, produces, purchases or uses any aspect of the healthcare system
- Employers with a vested interest in the current state of healthcare and future workplace trends

## Why Should You Participate?

With an expected attendance of 200, your company will have the opportunity to connect with your target audience during various dedicated times for sponsors — breakfast and breaks are held with you in the exhibit booth area. Join us for lunch and continue the connections and conversations.

Sponsors enjoy prime exhibit booth placement with ample time for interaction with attendees. They are key to the overall success of the summit. We welcome your organization's participation and look forward to displaying your logo on the promotional materials and providing your company with added recognition and visibility.
