## Kentucky Chamber of Commerce Employee Child Care Survey Template

*This survey template provides a list of recommended questions for employers to use to gauge their employees' child care needs and determine what type(s) of employer-provided child care support might be most impactful on the well-being of their employees. Because the survey asks for information about children and disabled children, the survey should be completely voluntary, anonymous, the results kept confidential, and it should be used only in accordance with the ADA. It is recommended that company leadership review these questions with the assistance of a qualified human resources professional. An employer may find that additional questions or modifications to the questions below are necessary to truly capture the child care needs of their employees. In addition, an employer may find some questions irrelevant.*

### Recommended Employee Child Care Survey Questions

**Recommended Disclaimer:** This survey is being used to gauge employees' child care needs and determine what type of employer-provided child care support might be most impactful to employees. The following questions request information about current childcare needs/costs and include two questions concerning disabled children. Your participation in this Survey is completely voluntary and the responses are anonymous. You may decide not to complete the Survey at any time. Refusal to participate in the Survey will not subject you to any adverse treatment. The responses to the Survey will be kept confidential, will not be used for employment decisions, and will only be used in accordance with the ADA.
