LOCKOUT/TAGOUT Train the Trainer

July 14, 2022 | DoubleTree Suites by Hilton | Lexington

Stay in compliance and avoid costly penalties.

According to OSHA, failure to control hazardous energy accounts for nearly 10 percent of the serious accidents in many industries and is one of the leading Most Frequently Violated OSHA regulations each year. The Lockout/Tagout standard establishes employers' responsibilities to protect workers from hazardous energy and requires employers to train each worker to ensure they know, understand, and are able to follow the applicable provisions of the hazardous energy control procedures.
