

*Find. Train. Retain.*

KENTUCKY'S  
**TALENT**  
PIPELINE

***81% of Kentucky businesses report that they are ready to grow in the next three to five years, but 84% of them cannot find workers with the skills they need today.\****

# KENTUCKY'S TALENT PIPELINE

## *Find. Train. Retain.*

If you are having trouble finding skilled employees for your business, you're not alone. Employers throughout your region — and across Kentucky — are looking for an effective approach to closing the skills gap and filling chronic vacancies essential to growth and competitiveness. Kentucky's Talent Pipeline offers that new approach through the development of employer-led and demand-driven talent supply chains.

In partnership with the State of Kentucky and the U.S. Chamber, the Kentucky Chamber Workforce Center is implementing a statewide Talent Pipeline System that aligns education and training programs with the workforce demands of business.
